

564 Space Saver Gas Fireplace Architectural Double Doors

fireplace**x**tordinaire™

564 Space Saver Architectural™ Double Doors

The ARCHITECTURAL™ DOORS offer an elegant collection of rectangular and arched black painted double doors for the 564 Space Saver. These beautiful the doors, which can be opened, create the illusion of a much larger fireplace.

The Architectural Door Collection features the ability to add richly plated onlays to the basic black, operable double doors. Onlays are available in three distinct designs, each with their own unique, hand-rubbed antique plated finishes in bronze, copper or nickel.

Architectural Door s are:
36 1/8" W x 29 1/16" H

This close up of the **Arts & Crafts Onlay** highlights a delicate oak leaf scroll, which is offered in a hand-rubbed antique copper finish.

Rectangular Double Doors

in Metallic Black Paint Finish

Arched Double Doors

Architectural™ Arched Double Doors
in Metallic Black Paint Finish

The **Classic™ Onlay** is available in an Antique Bronze finish and features the detailed lace-like appearance of the "Original" Fireplace Xtrordinair Classic design, when attached to the rectangular or arched double doors.

The **Artisan™ Onlay** has a soft Antique Nickel finish, which features a graceful diamond pattern when attached to the rectangular or arched double doors.

564 SS - Space Saver™

The 564 SS (Space Saver) is Fireplace Xtrordinair's newest gas fireplace, designed to offer a large viewing area along with comfortable heating for the smaller rooms of your home - up to 950 sq. ft with optional fan. With its consistent, radiant and convective heat and the reduced dimensions this fireplace is ideal for zone heating in bedrooms, dens and intimate spaces that do not require a great deal of heat.

The realistic flame of the fire, along with the heat output can to be easily adjusted with our Comfort Control™ gas valve. This component allows you to turn the burner from high to low, while maintaining the fire and glowing embers. This gives the fireplace the ability to be utilized and enjoyed year round.

The 564 may be personalized for each home. Choose from something as simple as the basic grill or upgrade the face option with various designs, textures and rich colors. A reversible ceramic fireback option is available to tailor the interior look of your fireplace and also boost the radiant heat output. The fan option increases movement of convective air around the firebox, maximizing heat transfer and over-all performance.

Adjustable Accent Light

Add a warm glow to your fireplace even when the fires turned on or off! It's perfect as a night light or soft indirect light for the room.
