

*It's the one
to come home to.*

MENDOTA

The hearth. Its history is as primitive as man. For centuries, it was the source of heat and life, the gathering place in every home. Modern technology has eliminated the need for the home hearth—but not our desire for the mood it evokes. At Mendota, we know you don't need a fireplace. You want one. And when it comes to satisfying a want, we know nothing can satisfy like the finest—a Mendota high-efficiency gas fireplace.

Traditional. Innovative. Stylish. Uncompromising craftsmanship and quality. The choice for those who can afford to choose. The best of ancient and modern technologies blended seamlessly and brought to life. The magical dancing flames. The soothing open fire, radiating warmth and glow.

All the sights and warmth of a woodburning fireplace. All the convenience and benefits of a high-efficiency gas furnace. Home is where the hearth is. Whether you seek to inspire romance, elegance, or comfort, nothing can spark the mood better than a Mendota.

Spark your life.

You work hard. You play hard.

You give your best,

and expect the best in return.

When it's time to come home and relax,

you know what sparks your mood,

from the family you love,

to the fine details of your surroundings.

On a cool evening, you know

nothing can say "relax"

the way a fireplace can.

Walk into a room warmed by a Mendota DXV Fireplace with Andover doors and suddenly, you're strolling down the 350 year-old streets of Andover, Massachusetts— galleries,

museums, quaint boutiques—the sounds of leaves crunching beneath your feet, the smell of fall in the cool, crisp air. Nothing captures the mood of traditional New England like Mendota's

Andover Collection: Classically styled doors and the same high-end touches found on all of our DXV Fireplaces—antique red firebrick, and artistically hand-molded logs—create

the illusion of a traditional woodburning fireplace, the perfect gathering place for family and friends. And, when you open the Andover doors you get a great view of the beautiful log fire.

* Ask your dealer about installing any Andover fireplace with the "true arch" look.
** Accent borders are available in black, vintage iron, Swedish nickel, antique copper, and gold finishes to match or compliment Andover's standard black doors and all of Andover's door trim overlay options.
The Andover Collection is available in all Mendota DXV fireplace sizes.

Andover doors extend over the entire fireplace giving it the largest possible appearance. All Andover doors may be opened for a full view of the beautiful fire.

Spark your
imagination.

You're not the kind of person

who talks about their dreams;

you're the kind

who makes them happen.

Given the proper environment,

your vision is limitless.

Define your refuge.

Seek your muse.

You know nothing can

spark your imagination

the way a fireplace can.

The Mendota Advantage

America's Premier Fireplaces
From Johnson, Gas Specialists Since 1901
Mendota fireplaces are custom built in limited numbers by Johnson Gas Appliance Co., a leading producer of high quality gas furnaces since 1901. You benefit from over 100 years of gas technology and a century old family tradition of craftsmanship and quality.

As a result, Mendota DXVs were rated "Best Buy" value in gas fireplaces by Consumers Digest. They were also awarded the fireplace industry's "Best of Show" honors at the Hearth Products Association National Expo.

Romantic Fireplaces That Are Also High Efficiency Wall Furnaces

In keeping with Mendota tradition, the DXVs are both dramatic fireplaces and powerful gas heaters that will heat a major portion of your home. They are certified ANSI/AGA high efficiency gas wall furnaces.

Flames And Heat Are Adjustable To Suit Your Mood And The Weather

Mendota's adjustable control and blower let you set the heat and flames anywhere from romantic slowly burning logs with gentle warmth on mild days to a roaring fire with lots of forced air heat on cold winter nights.

Mendota DXVs Are Good For The Environment

Mendota DXV direct vent fireplaces use 100% outside air for combustion. This preserves indoor air quality and maximizes combustion efficiency.

DXVs produce less than 1% of the harmful particulate emissions of woodburning fireplaces.

Mendota — The Right Choice

Mendota luxury gas fireplaces are custom built for the thoughtful buyer who is interested in quality, craftsmanship, and performance. The owner who wants something special for the most important place in the home.

Choose a beautiful fireplace for your beautiful room. Choose a distinctive fireplace that you'll be proud to share with your family and friends.

Choose Mendota.
