

*Where
family
and friends
get together*

Nothing says "home" like a fireplace does

and nothing says it better for today's homes

than a restoration-quality Mendota gas fireplace insert.

Nothing says "home" like a fireplace does. Its history is as primitive as man. For centuries, the hearth was the source of heat and life, and it's still the gathering place in most homes. The magical dancing flames, the soothing open fire, the warmth, and the glow. You can't imagine a home without a fireplace...yet sadly, in many homes the fireplace is seldom used.

In comparison to today's modern appliances, woodburning fireplaces are simply too messy, drafty, inconvenient, and costly to operate. Like relics, they often stand quiet on cold nights — dark, unused — a mere reminder of days gone by.

What's the solution?

Breathe life and warmth into the heart of your home with an easily installed, high efficiency, restoration-quality Mendota gas fireplace insert — a seamless blending of the very best of past and present technologies.

With the Mendota fireplace insert, you can enjoy all the benefits of a state-of-the-art gas appliance while preserving and enhancing the charm, comfort, and beauty of your home's existing fireplace. Imagine...at the touch of a button, you'll have a fire!

Mendota offers two different size inserts — D-30 and D-40 — and a variety of beautifully crafted fronts to fit and enhance any fireplace and décor. Our award winning, picturesque gas log fires are the best in the industry.

Nothing says "home" like a fireplace does, and nobody says it better for today's homes than Mendota.

"With our busy schedules and rising heating costs we needed a fireplace that was efficient and convenient. Our high efficiency Mendota fireplace insert was the perfect choice!

With the touch of a button we have a beautiful log fire and our Mendota insert operates on clean, convenient gas.

We didn't know a fireplace could be so beautiful and so easy to operate."

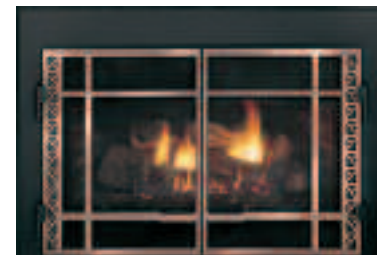

PRAIRIE COLLECTION

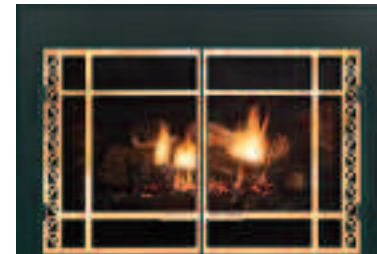

Prairie standard black screened doors. Doors extend over the entire fireplace giving it the largest possible appearance.

Prairie screened doors with vintage iron overlays for a hand wrought look.

Prairie screened doors with antique copper overlays. All Prairie screened doors may be opened for a full view of the beautiful fire.

Prairie screened doors with 24k gold overlays.

Prairie doors with Swedish nickel overlays.

"Give me the luxuries of life and I will willingly do without the necessities"

Frank Lloyd Wright (1895-1948)

Frank Lloyd Wright—the man largely credited with the Prairie School of architecture. He was a master builder, a rebel, and a worshipper of nature. He left behind a rich legacy — a truly

American style of architecture that exemplifies what it means to live life based on your own convictions. Strong horizontal lines, open interiors, rows of stained glass windows—warm,

informal, inviting—intimately connected with the surroundings — Mendota has captured this peaceful mood and organic simplicity with the Prairie Collection.

ANDOVER COLLECTION

“We often open the Andover doors after dinner when we’re playing games to show our guests the big open fire.”

“We care about our environment and our Mendota fireplace insert that produces less than 1% of the harmful particulate emissions of a woodburning fireplace was important to us.”

Andover standard black screened doors shown with a rectangular or arched surround. Doors extend over the entire fireplace giving it the largest possible appearance.

Andover screened doors with vintage iron overlays for a hand wrought look — shown with a rectangular or arched surround.

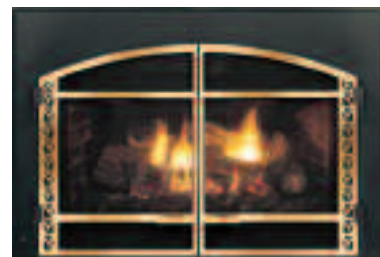

Andover screened doors with Swedish nickel overlays shown with a rectangular or arched surround. All Andover screened doors may be opened for a full view of the beautiful fire.

Andover screened doors with antique copper overlays shown with a rectangular or arched surround.

Andover screened doors with 24k gold overlays shown with rectangular or arched surround.

Andover doors with antique copper overlays.

Walk into a room warmed by a Mendota fireplace insert with Andover doors and suddenly, you're strolling down the 350 year-old streets of Andover, Massachusetts — galleries, museums, quaint boutiques—the sounds of leaves crunching beneath your feet, the smell of

fall in the cool, crisp air. Nothing captures the mood of traditional New England like Mendota's Andover Collection: Classically styled doors and the same high-end touches found on both the D-30 and D-40 inserts — antique red firebrick, and artistically

hand-molded logs — create the illusion of a traditional woodburning fireplace, the perfect gathering place for family and friends. And, when you open the Andover doors you get a great view of the beautiful log fire.

BENTLEY COLLECTION

Bentley standard black screened doors. Doors extend over the entire fireplace giving it the largest possible appearance.

Bentley Swedish nickel screened doors with arched surround.

Bentley antique copper screened doors with arched surround.

Bentley 24k gold screened doors with arched surround.

Bentley 24k gold doors.

All Bentley screened doors are also available with rectangular surrounds.

“The magnificent Bentley doors with their precision beveled edges and heavy steel construction truly set the tone for our special room.”

“We have almost as much fun changing the flames with our Mendota remote as my husband has with the TV remote!”

“You are a king by your own fireside, as much as any monarch on his throne.”

Miguel De Cervantes (1547-1616)

There's no compromising luxury — fine homes, fine furniture, fine automobiles, and the finest in fireplaces. We had your discerning tastes in mind when we created the Bentley Collection —

impressive, regal, stately — the quality and performance you deserve, the distinction you desire. Nothing can dress up a home and impress your guests like a Mendota fireplace with

Bentley doors. If you're in a regal mood, you're in the mood for a magnificent Bentley front.

Tuscany

Imagine enjoying a delightful walk through the vineyards and small villages of the Chianti region of Tuscany. You're invited to stop at a small villa for lunch. Capture the mood — this is Mendota's Tuscany front, a stylish reminder of the warmth and charm of old world Italy.

Wellington

Simplicity, basics. Create the look of a woodburning fireplace with Mendota's Wellington front — the essential hearth. The Wellington's traditional drape pull firescreen opens for a full view of the beautiful fire. It complements any home by putting the emphasis where you want it — in the most important place in your home. If you're in the mood to entertain, you're in the mood for a Wellington.

Wellington with standard, removable brass accent.

Victoria

Ornate houses, turrets, elaborate trim. Make an elegant decorative statement and capture the romantic mood of days gone by with Mendota's stunning Victoria fireplace insert — all of the modern convenience of a high-efficiency gas fireplace behind a beautifully detailed Victorian style filigree front.

Mendota Magic

The Only Gas Log Fires That Truly Capture The Magic Of A Wood Fire

The heart of Mendota's fireplaces is the magical log fire. The award-winning "TimberFire" and "Deep Timber" log fires are so authentic you'll think you're *still* burning logs from the woodpile.

The fires create a magical feeling of warmth and intimacy that naturally draws family and friends together.

D-40

Deep Timber logs with 3-level burner: Hi - 40,000BTUH
Lo - 6,500 BTUH
Infinite flame/heat adjustment between Hi and Lo settings.
The widest temperature range in the industry.

The D-40 fireplace insert is among the largest inserts on the market. It features the 3-level Deep Timber log fire that faithfully recreates the exact look and feel of a wood fire in all stages of burning. From the romantic gentle flames and glowing embers of a 6,500 BTUH late night camp fire to a roaring 40,000 BTUH log fire that will add excitement to any room.

It's a magical viewing experience that will fasten everyone's attention.

D-30

TimberFire logs with 2-level burner: Hi - 30,000 BTUH
Lo - 19,900 BTUH
Infinite flame/heat adjustments between Hi and Lo settings

The powerful D-30 fireplace insert features a picturesque log fire with lots of clean, efficient heat in a relatively small fireplace. The fire can easily be adjusted anywhere from slowly burning logs on mild days to a big 30,000 BTUH fire on cold winter nights.

The Mendota Advantage

America's Premier Fireplace Inserts From Johnson, Gas Specialists Since 1901

Mendota fireplace inserts are custom built in limited numbers by Johnson Gas Appliance Co., a leading producer of high quality gas furnaces since 1901. You benefit from over 100 years of gas technology and a century old family tradition of craftsmanship and quality.

As a result, Mendota inserts were awarded the fireplace industry's "Best of Show" honors at the Hearth Products Association National Expo. They are backed by an exclusive lifetime limited warranty.

Romantic Fireplaces That Are Also High Efficiency Wall Furnaces

In keeping with Mendota tradition, the inserts are both dramatic fireplaces and powerful gas heaters that will heat a major portion of your home. They are certified ANSI/AGA high efficiency gas wall furnaces.

Mendota Fireplace Inserts Are Easy To Install And Operate

Compact Mendota inserts are easy and inexpensive to install. They quickly slide into existing masonry fireplaces or already installed factory built fireplaces. They use your existing chimney with a liner.

They operate with the flip of a switch and can be controlled with an optional thermostat, wall switch or convenient remote control.

Flames And Heat Are Adjustable To Suit Your Mood And The Weather

Mendota's adjustable control and blower let you set the heat and flames anywhere from romantic slowly burning logs with gentle warmth on mild days to a roaring fire with lots of forced air heat on cold winter nights.

Mendota Inserts Are Good For The Environment

Mendota direct vent fireplace inserts use 100% outside air for combustion. This preserves indoor air quality and maximizes combustion efficiency.

Mendota inserts produce less than 1% of the harmful particulate emissions of woodburning fireplaces.

Mendota — The Right Choice

Mendota luxury gas fireplace inserts are custom built for the thoughtful buyer who is interested in quality, craftsmanship, and performance. The owner who wants something special for that very important place in the home.

Choose a beautiful fireplace for your beautiful room. Choose a distinctive fireplace insert that you'll be proud to share with your family and friends.

Choose Mendota.

Save Energy By "Zone Heating" With A Mendota Fireplace

Heat the Room You Use The Most

Turn down your central heating and heat where it counts.

It's true! Most families spend the majority of their time in only 20% of their home. You're probably no different! So why heat the area you're not using?

Mendota energy efficient fireplace inserts let you reap the benefits of zone heating while adding memories of special times around the hearth.

With an energy efficient Mendota fireplace insert in the room you use the most, you can turn down the central heat, enjoy the beauty, warmth, and fascination of Mendota's award winning log fire, and save valuable dollars on your energy bill.

Mendota Gas Fireplace Insert Features

- Built by Johnson, a company with over 100 years of experience in gas technology.

- Highest efficiencies — up to 86.4 %.

- Operates during power failure.

- Certified ANSI/AGA high efficiency gas wall furnace.

- The best log fires in the industry.

- Winner of "Best-of-Show" at the National Hearth Products Association Exposition.

- Uses 100% outside air for burning. This preserves room air quality and maximizes efficiency.

- Red antique firebrick lined fireboxes.

- Mendota logs are artistically hand molded from real logs.

- 2 sizes and 24 black, brass, silver, copper, nickel, cast, vintage iron and gold fronts fit any room & any decor.

- Lifetime limited warranty.

- Quiet, variable speed blowers.

- A convenient remote control is a popular option.

- Safety tested to ANSI/AGA Std.

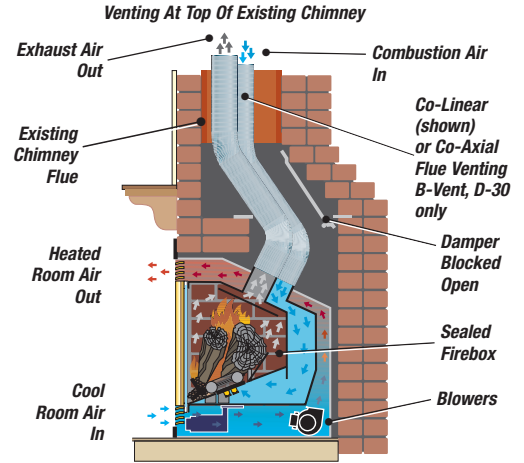

- Flames and heat are variable — operates with thermostat.

- Optional wall mounted control for easy flame/heat adjustment.

Mendota Sealed Combustion, Direct Vent Technology

Mendota's sealed combustion, direct vent system draws air for combustion from outside the home into a sealed firebox. Exhaust is expelled through a separate vent. Room air is heated and recirculated.

The system keeps warm air *in* and cold air *out*. This assures high air quality, maximum efficiency and trouble-free operation in today's tight homes.
